OUR PEOPLE pag. 50

What's our story?

Every self-respecting story and every successful project has a great story. **POLIPLAST DANGELO's** story is one of values transmitted through three generations and shared around the world with passion

Beauty

We're Italian. We've been surrounded by beauty all our lives.
Our eyes are filled with beauty every day.
And our collections contain so much of our land.

There's the Renaissance art of Florence, the breathtaking natural beauty of the **Sorrento Coast,** and the elegance and refinement of **Livorno, Milan** and **Genoa**. But above all, there is our home: **Naples.**

The contaminated cultures, hospitality, know-how, energy and resilience of this city are reflected in our refined, **versatile and comfortable fabrics** with a unique personality and timeless elegance.

We pair the heritage of beauty given to us by our land with our **curious nature** to push us in our constant search for new styles. All this leads to fine collections that combine our **Italian heritage** with **contemporary design.**
Timeless beauty that's rooted in the past, but also **looks to the future**.

Tradition

While good Italian taste inspires us and guides us, quality defines each of our choices.
This is the true strength and exclusivity of POLIPLAST DANGELO collections, all characterised by **sartorial attention to detail.**

Excellence accompanies everything we do in **every phase,** from design to the rigorous selection of fine materials to the customisation of spaces.
Luxury is not merely the product's aesthetics, but meticulous attention to each of its details, craftsmanship, constant research and creativity, all of which makes us stand out as an Italian company.

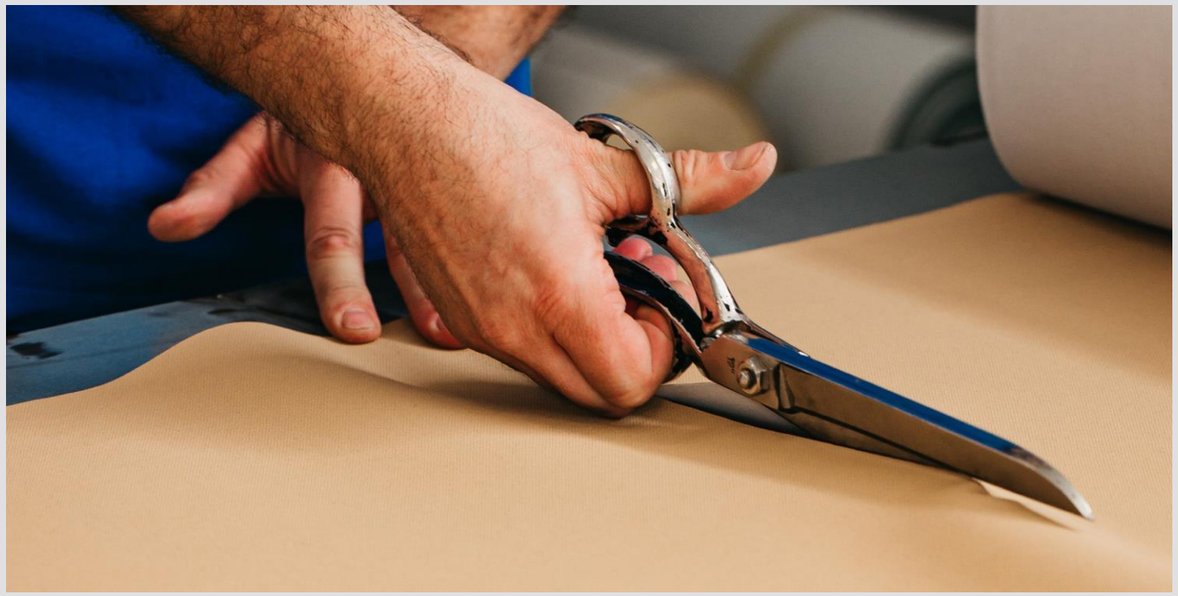

In all we do, we honour a simple but essential principle:
Before a product can satisfy our customers, it must satisfy us.

Research

In every sector, from **Automotive** to **Nautical,** through **Contract** and Healthcare, we follow innovation, a path that has always urged us to look forward to seek **new horizons of comfort and luxury design.**

Over 50 years ago, we were one of the **first companies in Italy to introduce synthetic leather in the nautical sector;** these innovative, ethical and high-performance materials revolutionised the upholstery world in Italy. Still today, in the same spirit, we are constantly seeking **new materials, techniques and cutting-edge** technologies to improve the quality and performance of our products, and **reduce the environmental impact** of our operations.

To join a POLIPLAST DANGELO collection, every textile must possess two fundamental attributes: **form and function.** Sophisticated and professional design must be combined with durability, sustainability and compliance with the strictest safety standards.

Sustainability

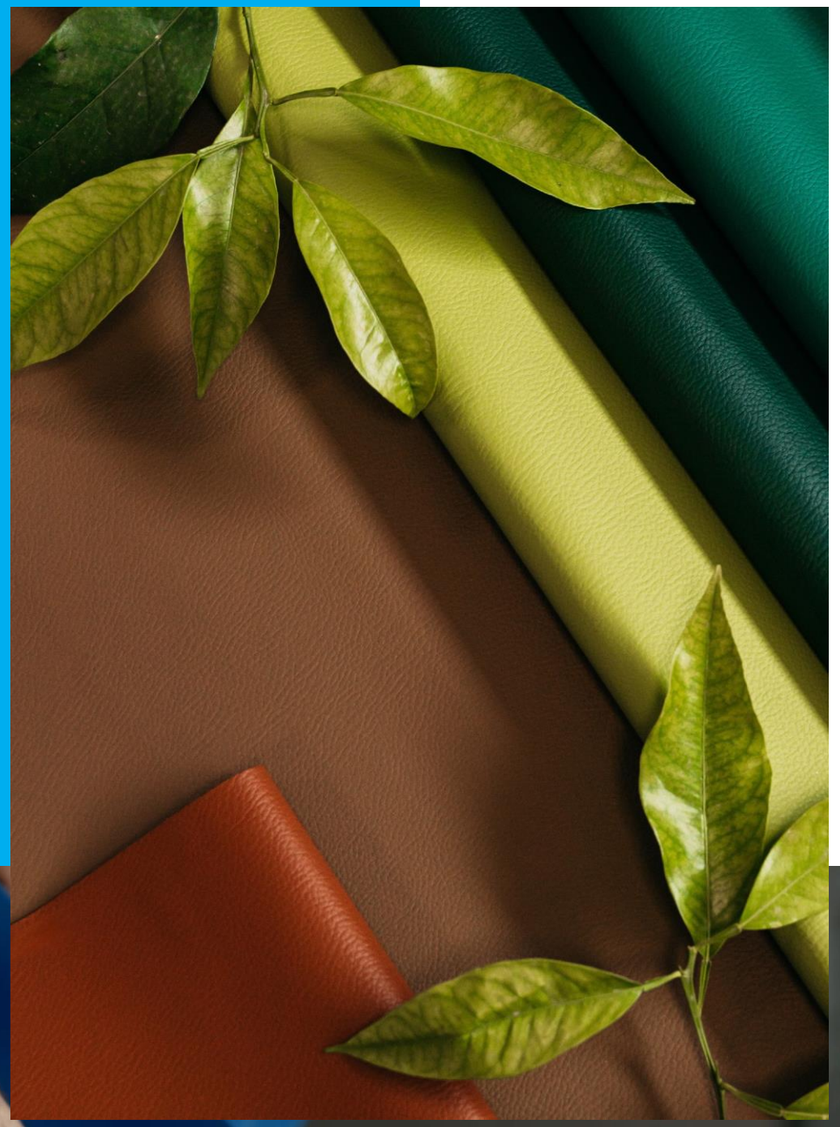

We care about our planet. We're inspired by it, but above all, we feel **a great sense of responsibility towards it.** We want our textiles and the places they live in to be in harmony with the environment around them, and to respect it.

That's why we **choose certified textiles** made using environmentally **sustainable methods and raw materials,** to minimise our impact on the environment. We choose **renewable materials** for our collections, such as polyester from recycled plastic bottles, and we adhere to Italy's Minimum Environmental **Criteria (CAM),** demonstrating our dedication to sustainability.

We share this commitment with all our suppliers and partners for an **ethical and responsible supply chain.**

Teamwork

Teamwork is our winning card. **We work with** world-renowned shipyards, contractors, upholsterers, architects and designers every day to turn their **ambitious projects into reality.** But above all, we **talk with our customers:** our international presence ensures we can understand the needs and **tastes of different markets,** offering collections that speak the language of the spaces they live in. Our collections enhance those spaces, enrich them and give them a unique **touch of personality and luxury.** This is a meeting of styles that dialogue with each other, through refined combinations of shapes and colours.

A family passion

POLIPLAST DANGELO is much more than a company: **it is a grand story of family, courage and passion.** From our founder's winning instincts to the challenges of a market that's continuously broadening its horizons, we carry on our story with vision and dedication, preserving the values that have always defined us.

Our goals

Simplify

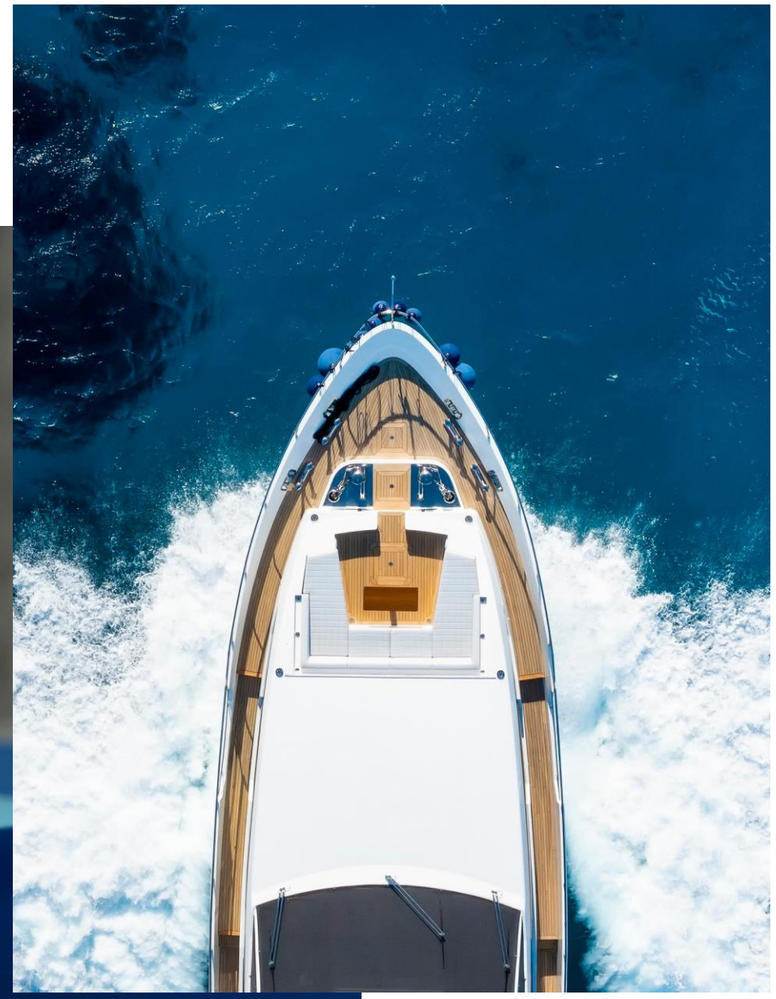

Facilitate raw materials selection and procurement.

Innovate

Propose cutting-edge articles in keeping with current trends.

Grow

Continue to develop and refine our expertise to serve our customers' needs.

A story of three generations

1960

The winning intuition

Italy is experiencing a an economic boom when our visionary founder introduces "Skai"––an innovative imitation leather––from Germany, revolutionising the world of Italian upholstery.

1969

The first workshop

The first workshop is opened at via Rimini 57 in Naples, with a single item and two colours.

1972

POLIPLAST DANGELO Srl

With the arrival of the founder's sons, Domenico and Mario, the company takes on a new identity and expands into new sectors: furniture, leather goods, contract and nautical.

1980s-1990s

Growth

The company grows and consolidates its position on foreign markets, investing increasingly in its search for high-quality materials.

2000s

The third generation

Antonio, Claudio, Daniele and Maurizio take up the family heritage, leading the company with their entrepreneurial spirit and international vision.

Today

International excellence

Today, POLIPLAST DANGELO is a reference in the technical luxury textile sector. Solidly rooted in Naples and looking resolutely to the future, the company continues to innovate as it combines passion and responsibility.

Heritage

Thanks to our ability to anticipate market changes and our in-depth knowledge of materials, we have become synonymous with Italian-made textile excellence around the world today.

Ours is a successful story of vision, tenacity and the ability to evolve, without ever sacrificing our identity.

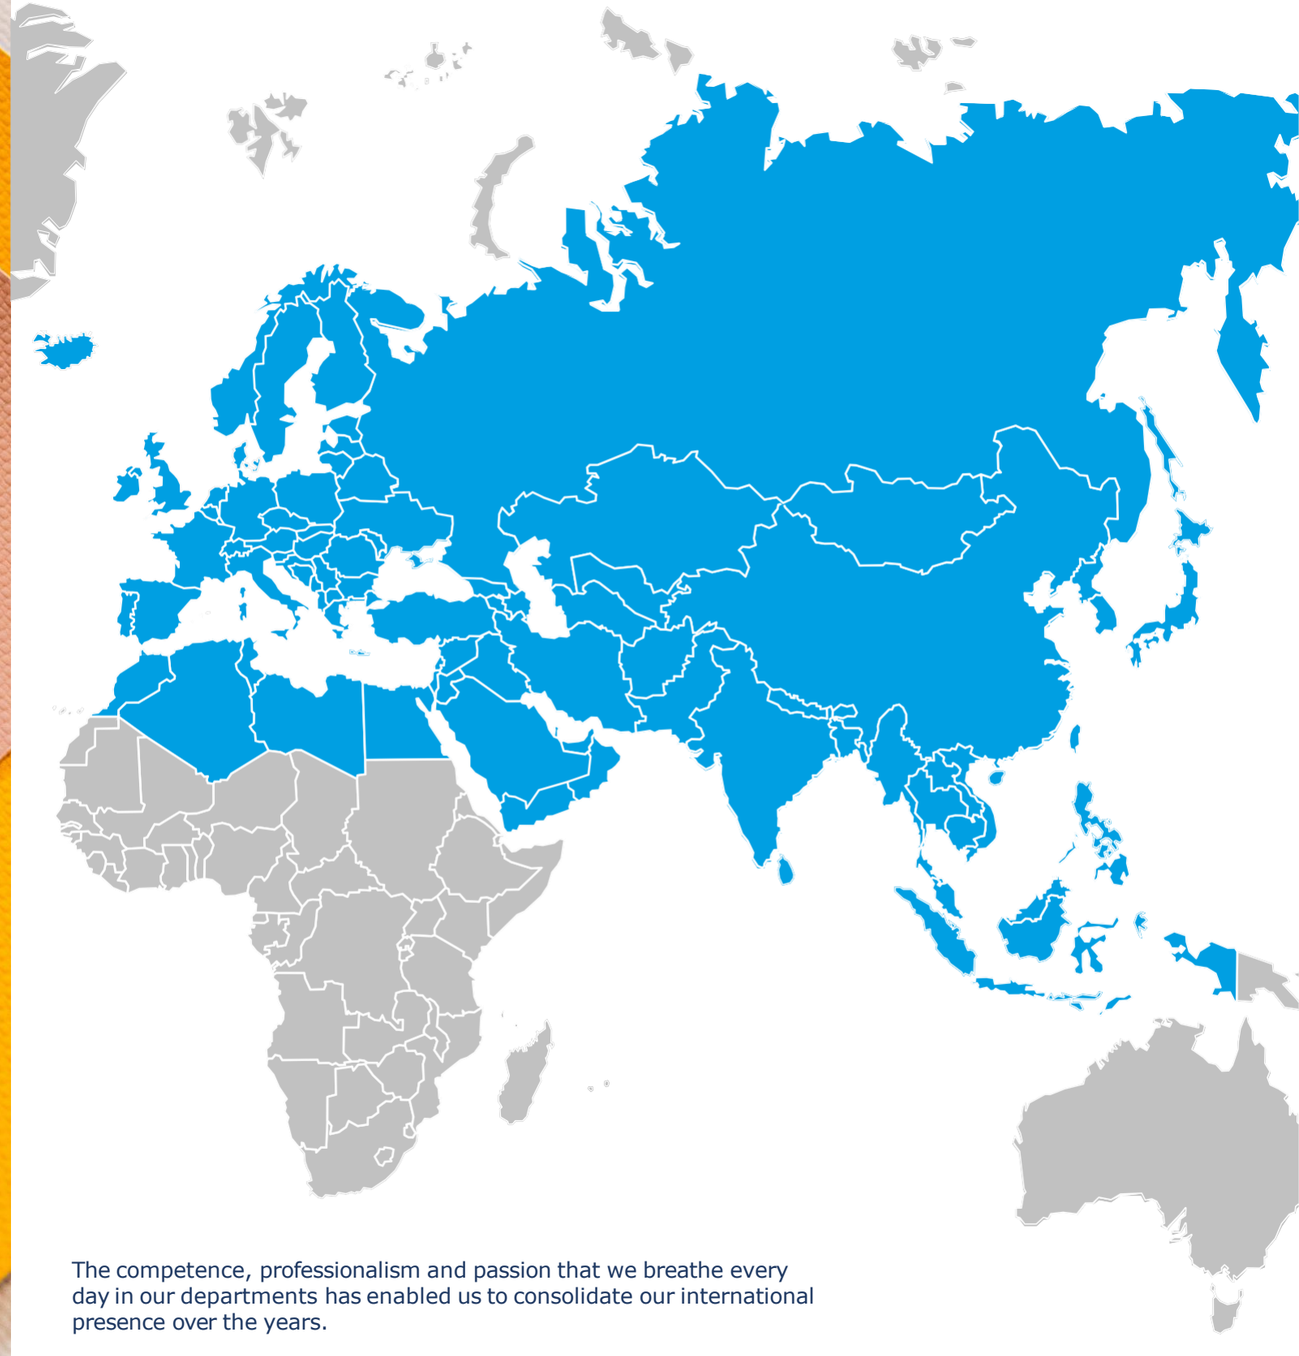

More than 60 years later, we look to the future with that same drive, ready to enrich our story with new shapes and colours, for bigger and bigger projects.

THE COMPANY TODAY

The company today

An international presence

The competence, professionalism and passion that we breathe every day in our departments has enabled us to consolidate our international presence over the years.

This ensures we connect to the needs of different markets and evolve our offering with products and services suitable for any type of context. This makes us today **the top supplier of indoor and outdoor textiles in Dubai and synonymous with the unique value of Italian craft-smanship around the world.**

Know-how

As we expand our horizons with an increasingly international vision, we stay firmly rooted in Naples, preserving our founder’s enterprising spirit.

We are driven by curiosity and a determination to innovate, facing every challenge with verve, convinced that excellence can be achieved only through continuous evolution and an ability to anticipate change.

Headquarters

Our Naples headquarters is a space that’s open to discovery. Here our customers can touch the quality of our textiles, feel the soul of our work and talk with our team to bring their projects to life.

Every textile has its space.

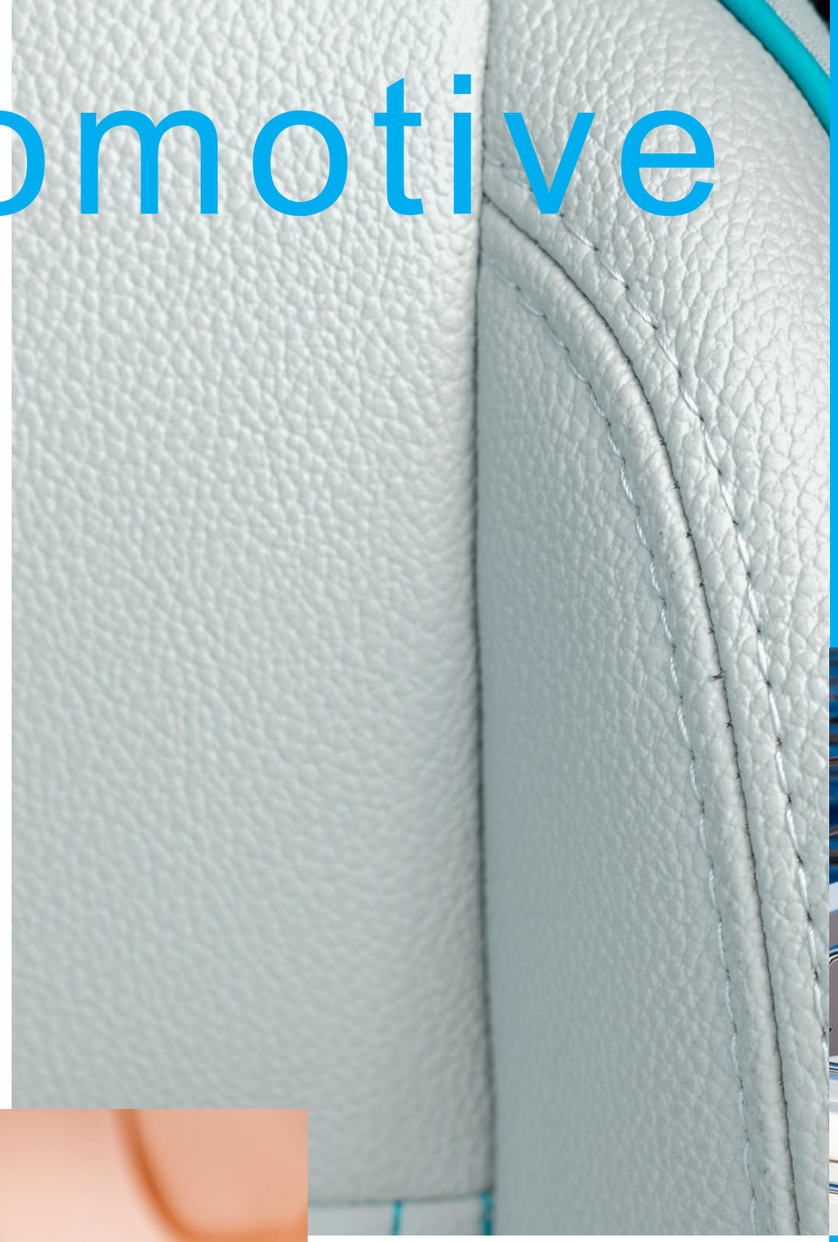

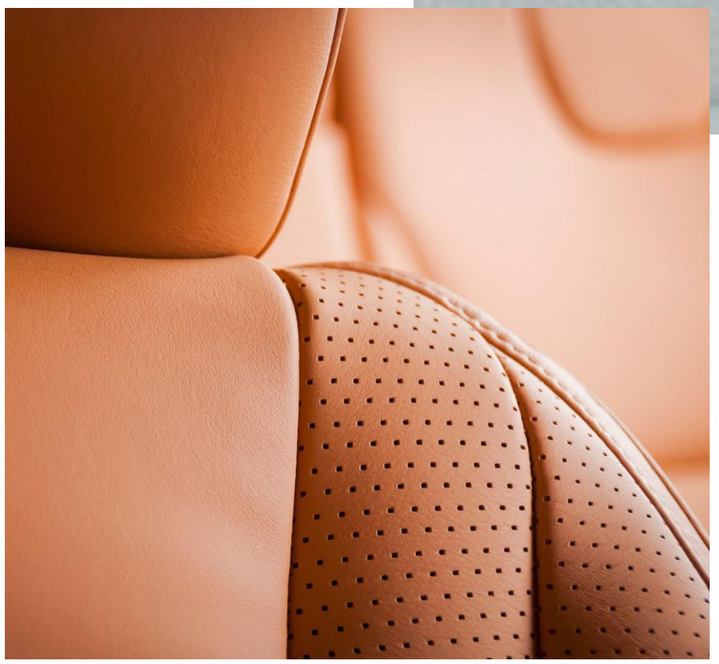

We select the finest textiles for the Automotive, Contract, Nautical, Healthcare & Wellness sectors. Innovation guides us in every area, leading us to new frontiers of comfort, performance and style. From cushion upholstery to interior and exterior furnishings, we create bespoke solutions to dress any space, vehicle or vessel with personality and style.

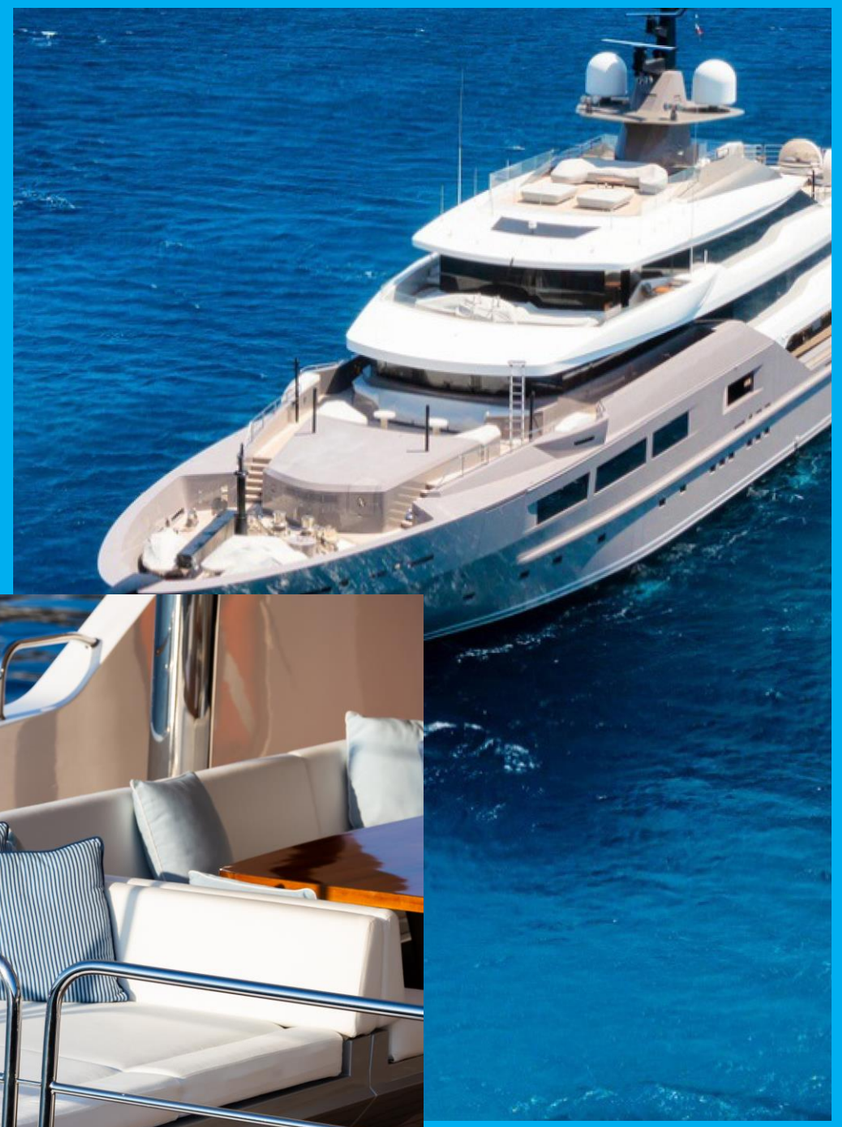

SECTORS

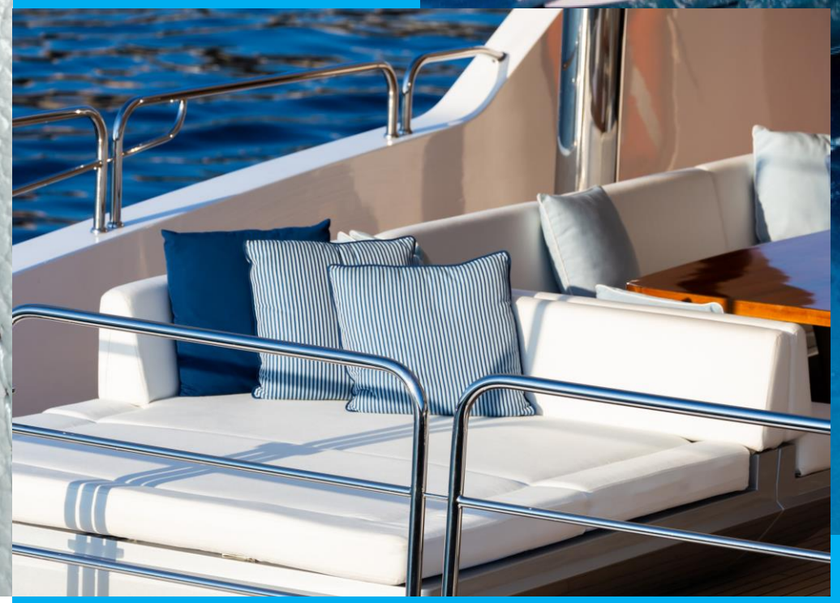

Automotive

Quality and character go hand in hand in our Automotive product line.
Our sophisticated, strong and durable design solutions are ideal for luxury car interiors or to personalise classic cars with comfort, style and durability.

Nautical

For the nautical world, we select a wide range of high-performance **textiles and technical imitation leathers,** ideal for indoor and outdoor cushions and furnishings.

Our waterproof textiles are UV-, moisture- and weather-resistant, designed to withstand the most extreme marine conditions, guaranteeing **reliability, durability and elegance** on yachts, sailboats and professional watercraft.

With POLIPLAST DANGELO nautical products, every project combines technique and style.

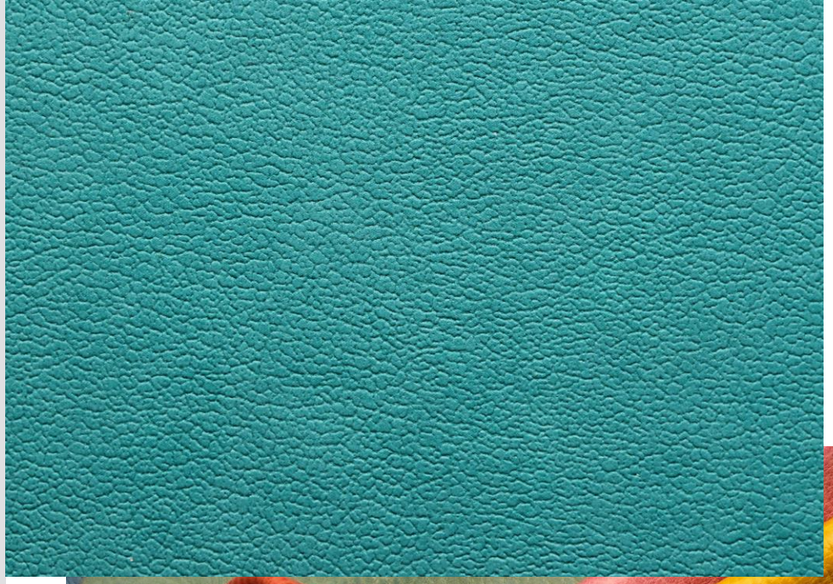

Contract

In our Contract products, form and function go hand in hand.

Our textiles combine the refined and professional elegance typical of residential environments with **the solidity and performance required of luxury spaces.** Whether hotels, restaurants or offices, our textiles fit perfectly into any setting, adding a touch of class and comfort that enhances the quality of everyday life.

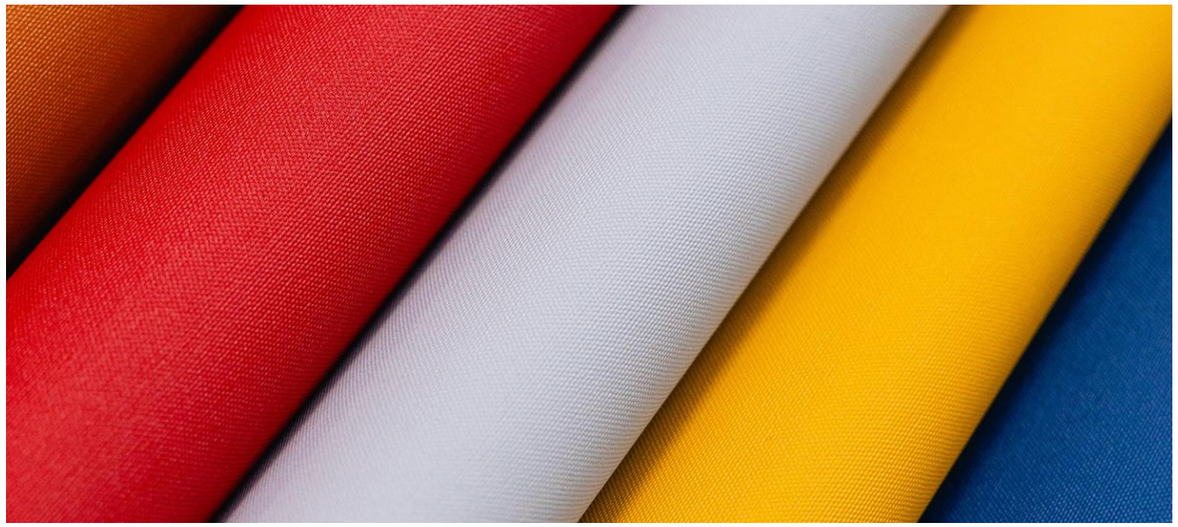

Healthcare

We offer a wide selection of high-quality textiles, coverings and materials for the healthcare and hospital sectors.
We select these products with care to guarantee hygiene, durability and comfort, meeting the rigorous demands of environments dedicated to health and wellbeing.

OUR PRODUCTS

Unique products that share a characteristic: *Excellence.*

Every **POLIPLAST DANGELO** textile tells a story of hard work, passion and attention to detail. Every story is different, yet bound to the others through **exceptional characteristics** that mould its quality to exceed any standard.

Technical innovation
Cutting-edge and functional solutions for every context and that satisfy ever-changing design and performance needs.

Safety
Durable and reliable materials designed to preserve quality and performance over time, even in the harshest environments.

Elegance
Sophisticated design that combines style, personality and Italian taste to enhance any space.

Sustainability
Our choice of environmentally-friendly materials and our adherence to CAM criteria reflect our determination to reduce our environmental impact and promote an ethical design culture.

Reflecto

innovation that reflects us

We combine performance, comfort and design in Reflecto, the new frontier of technical textiles for the nautical sector.

Made using **resin-coated acrylic fabric** with a unique **Thermo-Cool technology,** Reflecto reflects sunlight and reduces heat build-up to help keep both outdoor and below-deck spaces cooler.
This innovation increases wellbeing on board and contributes to energy efficiency. Available in a selection of sophisticated colours, Reflecto is an elegant complement to all nautical, private and professional settings.

What makes Reflecto unique?

- **Excellent resistance to UV,** sea salt and weather
- **Long-lasting dimensional stability,** even in harsh environments
- **Elegant and contemporary finishes,** ideal for high-profile nautical projects

Yachtmaster 354

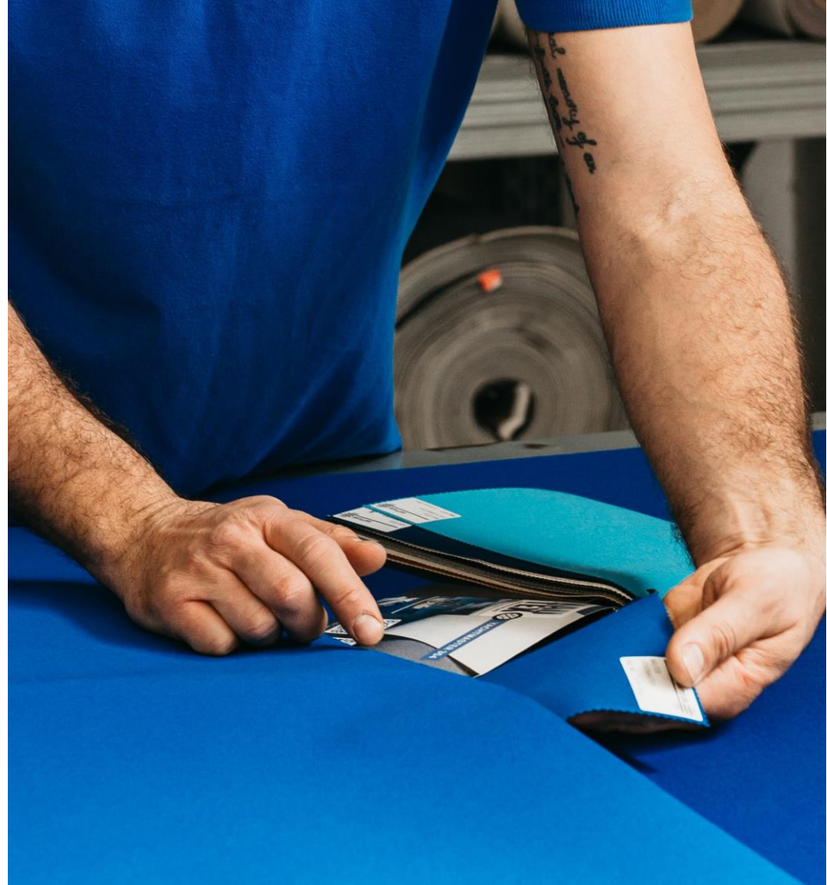

The excellence of Sattler nautical fabric exclusively for Italy

Yachtmaster 354 is the resin acrylic fabric that redefines the standards **of high-end nautical coverings.** POLIPLAST DANGELO is proud to be the exclusive distributer for the Italian market.

Yachtmaster 354 is made using a special **acrylic resin coating technology** by the Austrian company **Sattler SUN-TEX GmbH,** a reference in the production of technical fabrics for nautical applications. It guarantees **excellent weather resistance,** dimensional stability and durability for maximum protection at sea without sacrificing the elegance typical of Italian style. This high-performance, certified fabric has a contemporary design that meets the ever-increasing demands of the nautical industry.

What makes Yachtmaster 354 unique?

- **Excellent weather resistance** – retains shape and colour even after prolonged exposure to the sun, wind and sea salt
- **Durability and reliability** – constant performance over time, ideal for intensive use in marine environments
- **Innovative design** – sophisticated finish, elegant colours and a texture that combines aesthetics and functionality
- **Sustainability** – high-quality materials that meet the strictest environmental and safety criteria

New variants and formats

To best meet the needs of industry players, we have expanded the **Yachtmaster 354** range, introducing a **new 220 cm width** to the standard **152 cm** format.

This innovation improves efficiency in producing large marine covers and upholstery, reducing waste and cutting production times.

- **220 cm range: up to nine colours**
- **152 cm range: 17 to 19 colours, with four new hues** inspired by the latest nautical design trends

Yachtmaster 354 combines **advanced technical performance, timeless style and commitment to sustainability,** becoming an **absolute reference in the world of professional yachting fabrics.**

A choice of excellence for anyone wanting to combine **reliability, aesthetics and innovation** that's **made in Italy.**

Sicily

Mediterranean touch

The perfect combination of technical advancement, appeal and sustainability, Sicily is the ideal solution for **interiors and exteriors of yachts, pleasure boats, high-end inflatable boats and contract projects for the sea.**

Inspired by the light and colours of the Mediterranean Sea, this material redefines the standards of nautical upholstery, guaranteeing **comfort, durability and timeless style.**

Sicily is designed to withstand all the **challenges of on-board life, resisting UV rays, sea salt, moisture, oils and sun creams** to look good and remain soft even after years of use. Easy to clean, it's perfect for upholstery and cushions for high-end yachts and inflatable boats, but also for contract projects where hygiene and durability are key.

Its lambskin-effect surface gives it a sophisticated appearance and a **velvety and natural feel** for environments that demand **high-performance and exceptional elegance.**

Sicily's combination of refined design and advanced technical performance makes it a **reliable and versatile material** to dress the most exclusive open spaces with allure and personality.

What makes Sicily unique?

- **Lambskin-effect grain** that's elegant and soft to the touch
- **Extreme resistance** to UV, sea salt, moisture and weather, even in extreme environments
- **IMO certified** for marine safety and performance
- **Resists** body fluids, oils and sun creams
- **Easy to clean:** bleach- and alcohol-resistant surface, ideal for cushions, upholstery and coverings on yachts or contract projects
- **BioCote® antimicrobial protection** for a continuous and long-lasting hygienic barrier
- **PFAS-free formula:** environmentally friendly and compliant with Europe's strictest regulations

Technical specifications

- **Roll length:** 30 lm
- **Roll height:** 140 cm
- **Weight:** 700 g/m²
- **Thickness:** 1.05 m m
- **Coating:** 100% PVC
- **Backing:** 100% PES
- **Abrasion resistance (Martindale):** > 300,000 cycles

DOLCE VITA INDOOR

Sustainable elegance for contemporary living

Dolce Vita Indoor is a tribute to the timeless elegance and vibrant energy of the Italian lifestyle.

Made of **100% polyester** from recycled post-consumer plastic bottles, it represents the perfect combination of l**uxury, versatility and environmental responsibility** to reflect POLIPLAST DANGELO's vision and authentic soul.

The collection consists of thirteen variants designed to blend seamlessly into high-profile interior designs, guaranteeing long-lasting style and performance. With its wide colour palette and extraordinary versatility, Dolce Vita Indoor offers a complete range of textiles that **redefine the aesthetic and functional standards** of furniture, contract and yachting indoor sectors.

GOOD FOR

Fabrics that love children, animals and the planet

The **Good For** line expresses a new way of conceiving fabric design: a **deliberate style** that focuses on wellness and sustainability. Every fabric is developed to reduce its environmental impact and guarantee maximum safety, even in the most sensitive settings.

"Good for Pets"
The "Good for Pets" line offers greater resistance to wear and damage caused by pets. These textiles have been tested according to standard BS 8479 at the CTL GmbH Institute in Germany to demonstrate resistance to scratching.

Resistance tests include:

- Textile resistance to pointed objects or scratches caused by pets
- All "Good for Pets" textiles earned the highest score (5 on a 5-point scale) for their superior resistance.

Why choose "Good for Pets" textiles?

Prioritise the comfort of pets and people, creating a welcoming environment.

- Guarantee cleanliness with a water-repellent finish, making cleaning stains quick and easy.
- Save time and money through easy hair removal and greater textile resistance.

"Good for Babies"
Our "Good for Babies" line has been awarded prestigious certifications: "Safe for Babies", "Safe for Children" and "Human-friendly" issued by the Textile Institute of Łódź, TextilCERT Certification Department. These certifications attest to our compliance with strict standards for baby and child products.

Rigorous testing includes:

- Correct pH levels for babies' delicate skin (pH 4.0 to 7.5)
- High resistance to saliva, sweat and washing to preserve the quality of the fabric
- Compliance with the ecological requirements outlined in Annex XVII of the EU's REACH for harmful substances

Why choose "Good for Babies" fabrics?

- Promote wellbeing by preventing skin irritation and exposure to harmful substances.
- Guarantee comfort with skin-friendly textiles and excellent colour retention.
- Save time and money with less frequent washes and textile longevity.

Certified quality and safety

OEKO TEX® STANDARD 100

OEKO-TEX® STANDARD 100 guarantees the absence of substances harmful to health

REACH COMPLIANT

REACH compliant complies with European chemical safety regulations
A collection made to last, protect and inspire with Italian beauty and love for the environment

Mediterranea

The beauty of our land

Mediterranea is the collection celebrating the essence of Italian style, blending craftsmanship, **research and innovation** in a perfect balance between **heritage and contemporaneity.** Designed to transform any indoor or outdoor space into a place of beauty, comfort and harmony, the collection elegantly interprets the allure of Mediterranean culture.

Made using threads specially designed to create a **soft melange effect and a delicate and natural touch,** Mediterranea combines the precious appearance of traditional furniture textiles with the **technical performance** required in luxury projects. The result is a **refined, durable and versatile line** that enhances any context, from nautical to contract, from luxury hotels to the most exclusive private residences.

The collection in detail

A sensory journey between Florence and Sorrento

Two souls, two inspirations, one unique vision of beauty: **Florence**, with its Renaissance splendour, and **Sorrento,** expressing the Mediterranean sunshine and the enchantment of the Sorrento Peninsula. Every fabric in the collection **tells a tale of elegance and creativity,** combining light, materials and colours in perfect harmony.

Firenze

The fabrics of the Firenze line celebrate the art and ingenuity of the Italian Renaissance:

- **Giotto:** inspired by the works of the great painter, evoking Italian art and craftsmanship
- **Michelangelo:** like the celebrated artist, this fabric promises strength, elegance and timeless beauty for any space
- **Leonardo:** embodying the ingenuity and creativity of Leonardo da Vinci, offering a unique mix of style and technical advancement
- **Botticelli:** delicate and poetic, it conveys a sense of grace and lightness
- **Donatello:** like the master of sculpture, it adds depth and character to any environment
- **Machiavelli:** sophisticated and rational, combining form and substance
- **Lorenzo:** representing the luxury and magnificence of the Medici family in Florence

Sorrento

A line that captures the light and vitality of the Sorrento Peninsula and the Amalfi Coast:

- **Massa:** inspired by the beautiful landscapes and traditions of the Massa Lubrense coast
- **Minori:** expresses the picturesque beauty and intimate charm of the coastal villages
- **Furore:** reflects the strength and natural beauty of the thriving town
- **Atrani:** authentic and refined, like the village that inspired it
- **Nerano:** evokes the elegance and tranquillity of Nerano Bay
- **Maiori:** adds the vivacity and richness of the colours of the seaside village
- **Ravello:** synonymous with refinement and timeless beauty

What makes Mediterranea unique?

- **High weather resistance:** perfect for marine and outdoor environments
- **UV-resistant:** maintains colour brilliance even after prolonged exposure to the sun
- **Breathable, hypoallergenic and fully recyclable:** for long-lasting and sustainable comfort
- **Anti-static and antimicrobial:** protects against moisture and microorganisms
- **High resistance to tearing and abrasion:** designed to last
- **Easy maintenance:** washable in water or dry, no ironing required

Certified safety and quality

- **International Maritime Organization (IMO) certification:** Complies with international marine safety requirements.
- **Fire resistance:** Meets the highest safety standards for residential, contract and marine environments
- **Durability:** Designed to withstand extreme weather, including water and UV rays, "Mediterranea" fabrics preserve their beauty and integrity over time.

Geralbond

for boating and more

The new high-strength yarn revolutionising the world of nautical upholstery

Geralbond was designed in Italy and subjected to rigorous endurance tests to guarantee outstanding performance even in the most demanding navigation conditions. And the bonding treatment ensures optimum adhesion to the surfaces for an impeccable hold over time.
A unique combination of safety, durability and strength make Geralbond the perfect choice for yacht and boat interior trim.

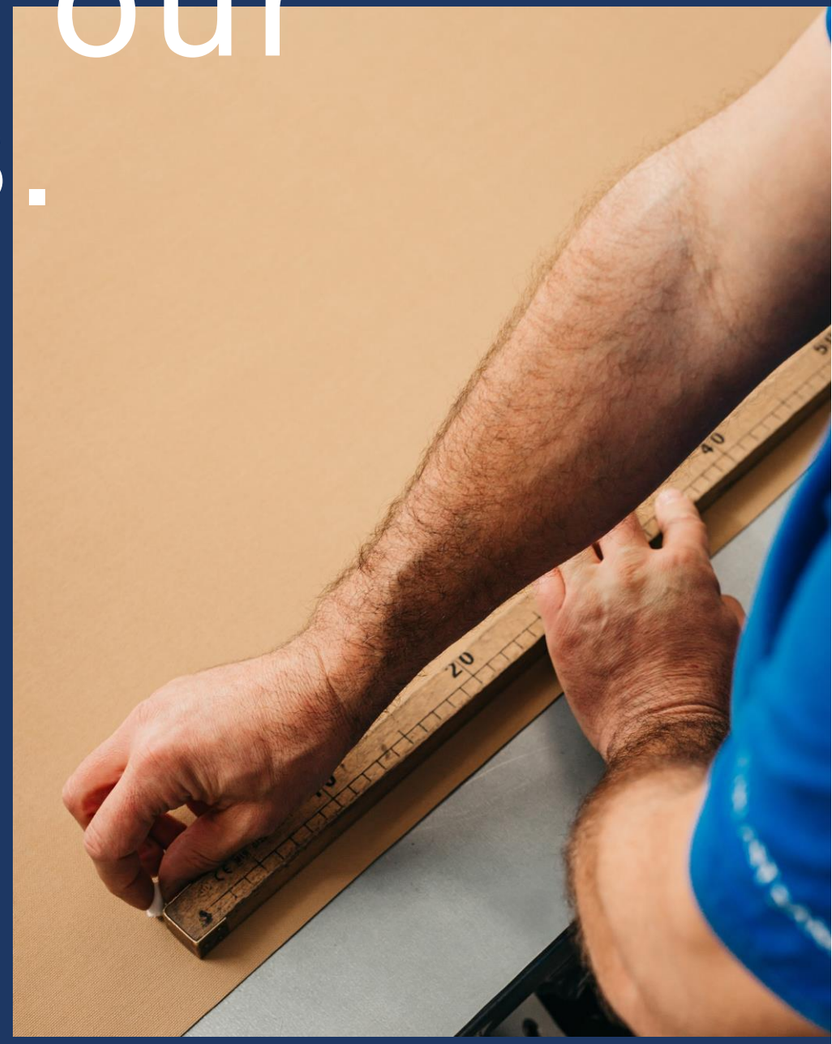

What makes Geralbond unique

- **Exceptional strength and reliability**
  with an average tensile strength of 5561 cN and an average elongation of 20.5%.
- **Accurate precision**
  thanks to the determination of thread gauge in accordance with EN ISO 2060:1997
- **Flawless detail and precise definition**
  with a gauge of approx. (Nm 30/3) – (dtex 277*3)
  ideal for sophisticated marine furnishings
- **Exclusive Italian design:**
  100% polyester
- **Strength and exceptional resistance**
  to UV, weather, saltwater and chlorine
- **High resistance**
  to acids and alkali

RESEARCH AND INNOVATION

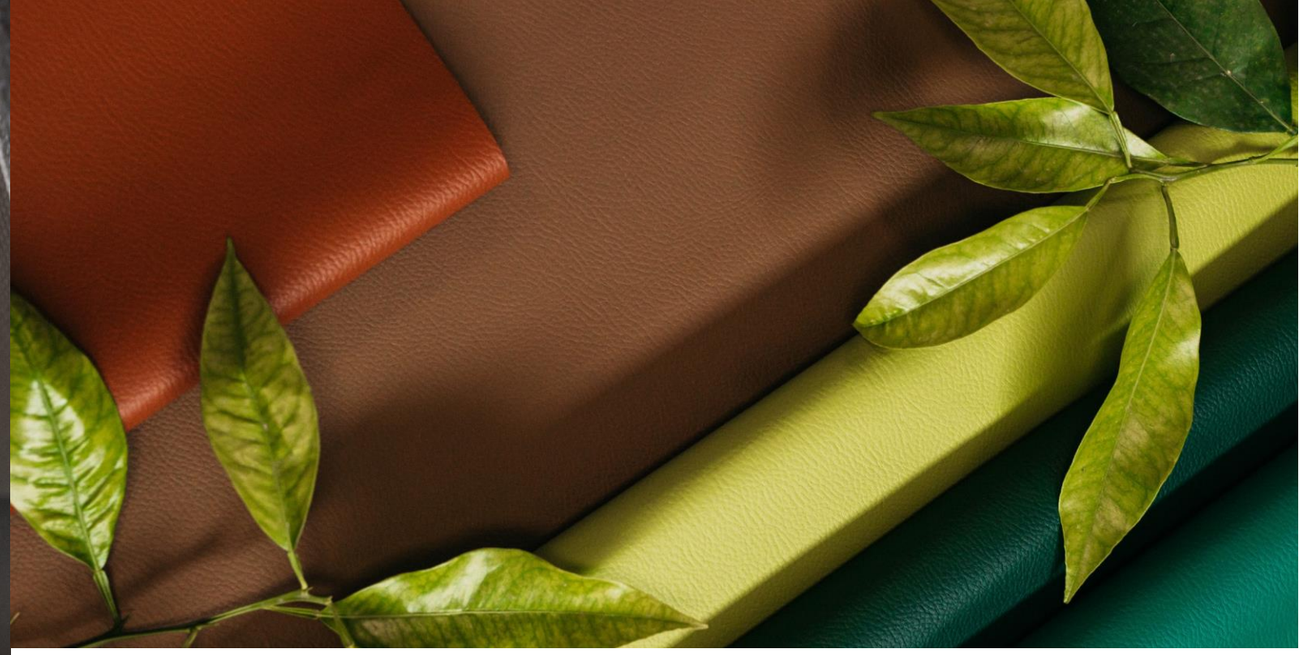

Innovation has always been our focus.

Our research and development department guides all we do. It is where creativity, technology and expertise meet to offer increasingly high-performance and eco-friendly textile solutions.

Each fabric undergoes rigorous **checks and performance tests based on a scientific and multidisciplinary approach,** and with a single objective: guarantee cutting-edge materials that perfectly **combine reliability, comfort and durability.**

Our planet: A space worth protecting

Everything we do has an impact on the environment and on people.
That's why, at **POLIPLAST DANGELO,** sustainability isn't a goal, but a daily commitment that drives every choice we make: from **selecting fabrics with renewable materials,** like recycled polyester, to adopting **sustainability criteria (CAM) and assessing our environmental impact.**

Our textiles, with their refined textures and sophisticated chromatic harmonies, are made from **sustainable** and **OEKO-TEX® Standard 100**-certified fibres, helping to protect the environment by regenerating materials and reducing consumption, emissions and waste.

The entire supply chain adopts this approach: we work with suppliers and partners who share our vision of an **ethical, transparent and responsible** supply chain.

TRADE

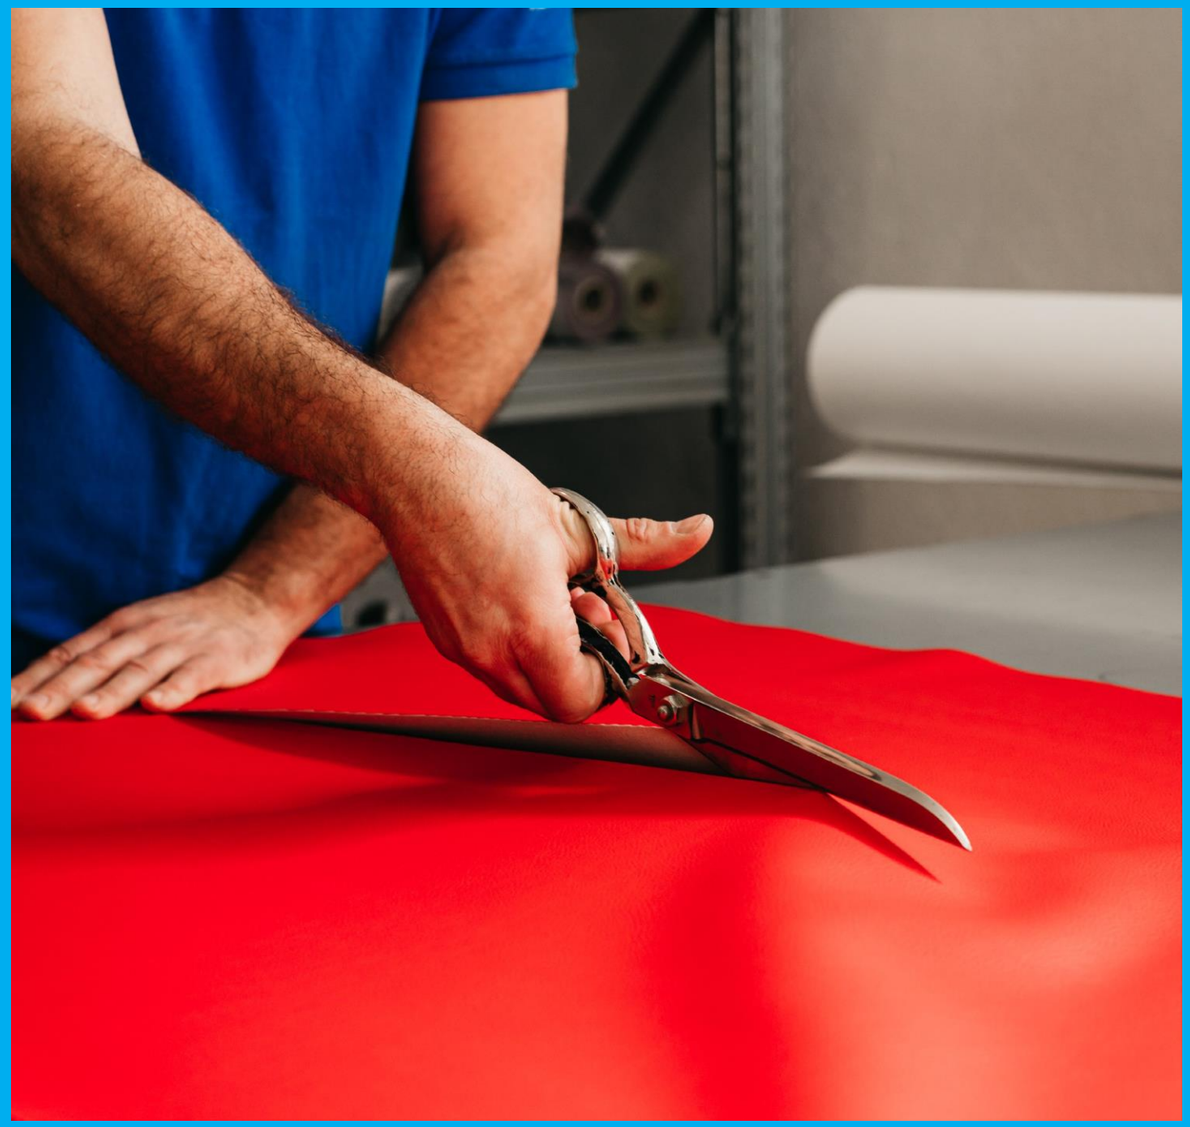

Genoa Boat Show, Dubai International Boat Show, METS in Amsterdam, Index Saudi Arabia, METS Trade and Heimtextil: POLIPLAST DANGELO participates in major Italian and international trade fairs dedicated to design and boating, with booths and experiential installations. Each participation represents a unique opportunity to present the excellence of our products and establish new collaborations with sector designers, architects and professionals.

AWARDS AND CERTIFICATIONS

POLIPLAST DANGELO's commitment to quality and sustainability has been recognised by awards and certifications attesting to its solidity and international vision.

We are **a member of Confindustria Nautica,** an association of largest companies in the sector that promotes the excellence of Italian manufacturing around the world.
Our **ISO certifications** and compliance with **Environmental, Social & Governance (ESG) principles** attest to our sustainable and responsible growth path based on transparency and respect for people and the environment.

Our **constant presence at major international trade fairs** (including the **Genoa Boat Show, METS in Amsterdam** and the **Dubai International Boat Show**) represents further recognition of POLIPLAST DANGELO's role as **an ambassador of Italian design and quality** on the global landscape of technical textiles and furnishings.

COLLABORATIONS AND PARTNERSHIPS

An international network

POLIPLAST DANGELO's value is built on a **global network** of collaborations with trusted partners who share our vision of excellence and innovation. The most important are:

UAE • Maldives • Turkey

Qatar • Kuwait • Saudi Arabia

Our most significant collaborations include **Sattler SUN-TEX GmbH,** a prestigious Austrian company specialising in the production of **technical fabrics for the nautical sector.**

Through this strategic partnership, **POLIPLAST DANGELO** is now **the exclusive distributor in Italy of Yachtmaster 354 fabric,** an international reference for **strength, durability and innovative design.** Officially presented at the **Genoa Boat Show 2024,** this collaboration consolidates our **leadership in top-of-the-range technical** materials and testifies to our commitment to offering **exceptional solutions** for nautical and design professionals.

At POLIPLAST DANGELO, collaboration is the foundation of every project: sharing ideas, experiences and creative contamination to generate tangible value for our customers and partners.
